Intelligent Management

Long connection pipe design

Wide operation range

Modular operating*

High ESP

Comprehensive protection

- Outdoor unit quiet mode.
- Oil balance between compressors.
- High energy efficiency with high-performance compressor.
Long connection pipe design with the maximum length of 1000m.
- Auto switch of module status in every 8 hrs, which greatly improves the reliability of complete unit.
- 4 levels of static pressure for option with the maximum of 82 Pa.
